

# Enhance Your Background Check Process with Customization

Backgrounds Online offers the ability to tailor your screening flow to match your organization's branding and messaging. By incorporating your logo and personalized content, we establish trust and assure individuals undergoing background checks that the request is coming directly from your organization.

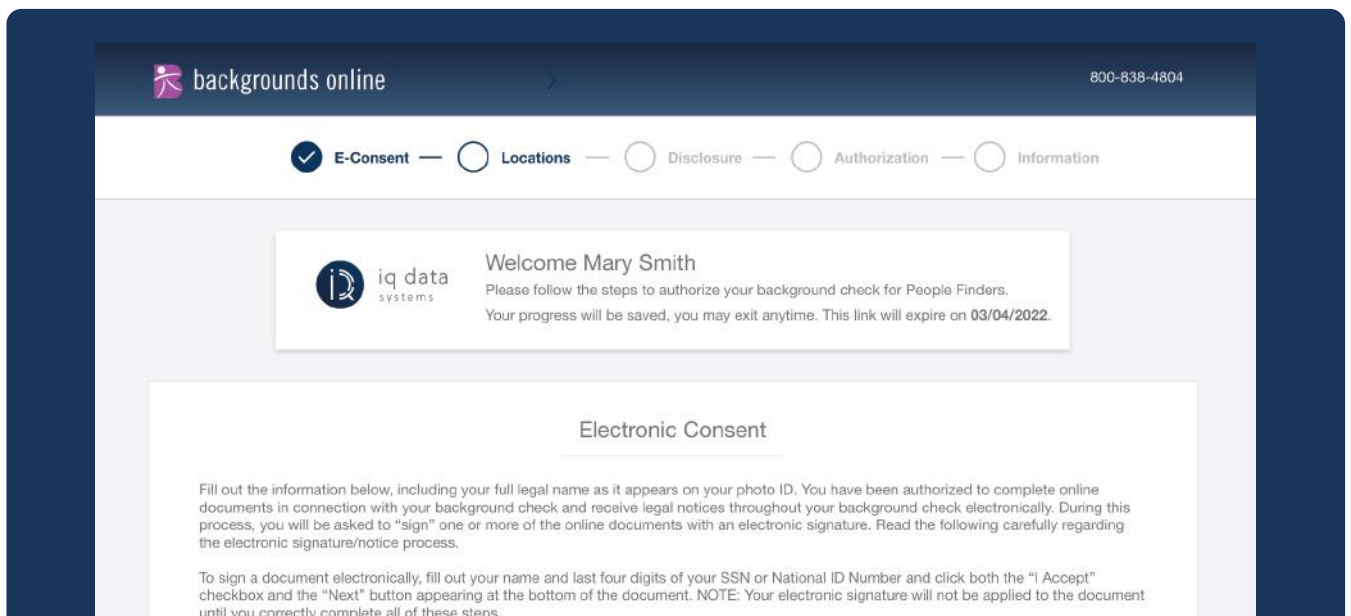

## Branded Screening Experience

In today's competitive job market, standing out and attracting top talent can be a challenge. By utilizing a co-branded screening flow, you can promote brand recognition and create a more personalized experience. Including your logo in screening invitations signals legitimacy and safety, mitigating concerns about spam and phishing attempts. Additionally, adding a welcoming message further enhances the individualized touch. Given the competitive nature of hiring in 2023, it's crucial to make an impression and be memorable.

## Customize the Candidate Entry Experience

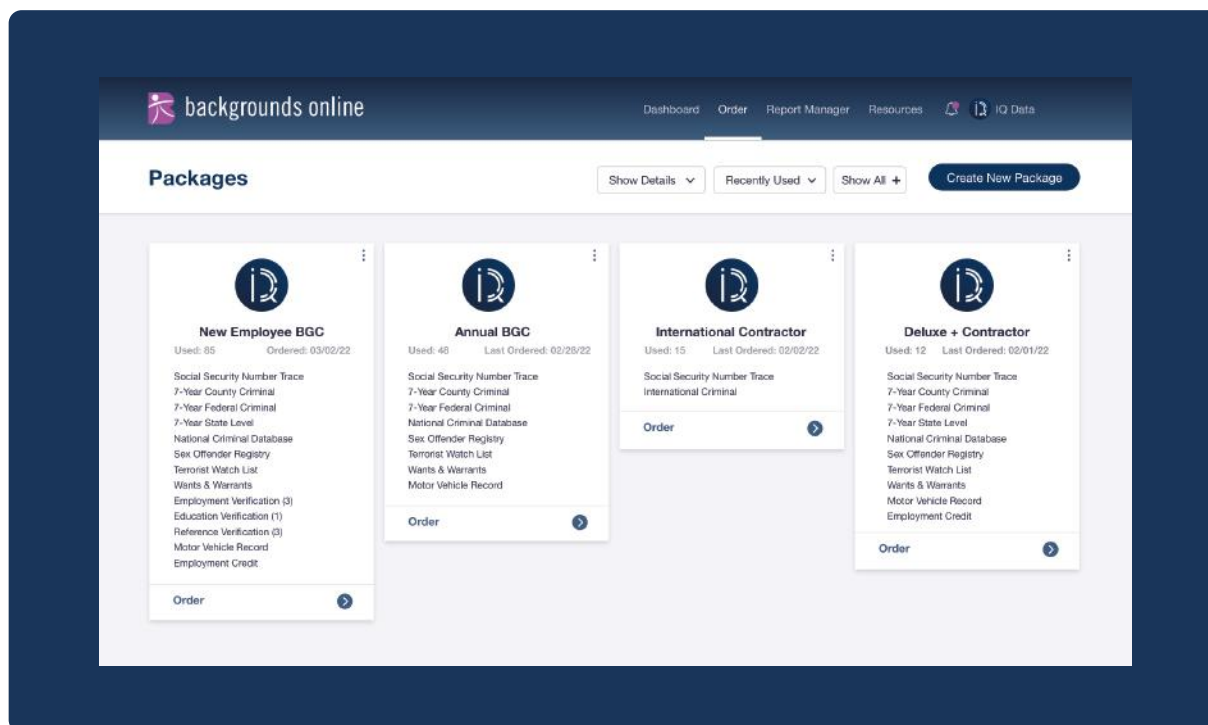

We also offer the option to incorporate your logo into our candidate entry system. This means that individuals providing their information for the background check will see your branding, fostering a sense of trust and transparency. When requesting personal details, establishing this level of confidence is essential.

Once applicants begin the screening process, we ensure a seamless and familiar experience. Our user-friendly flow guides them effortlessly from start to finish, making the journey comfortable and easy to navigate.

## Tailor Screening Packages to Your Needs

Backgrounds Online provides three comprehensive preset screening packages that can be modified to align with any position. Simply visit our website, [select the desired package](#), and customize it further by adding verifications, Motor Vehicle Records, and position-specific searches. Alternatively, you can start from scratch by choosing the No Package option, allowing you to build a background check report from the ground up. Once complete, you can save the customized background check with a name for easy access in the future. We can even incorporate your logo into these screening packages, offering an additional layer of customization.

## Ready to Get Started?

At Backgrounds Online, our mission is to equip you with the necessary tools and services to effectively engage applicants, streamline the screening process, and onboard highly qualified employees. Our customized, brand-friendly flow strengthens communication with screened individuals and encourages them to choose your organization.
