

We're Active In Our Industry To Better Serve You

The team at Backgrounds Online regularly attend conferences, webinars and other events to help us continuously provide you with the latest industry updates.

Service First

At Backgrounds Online, sharing information on topics that matter to your organization, such as current and upcoming laws, hiring practices and turnaround times, is crucial to us. To help us offer unsurpassable service to you, we participate in various events, including:

SHRM22

This month we attended the Society for Human Resources Management (SHRM) 2022 conference and called booth #2050 our temporary home. It was thrilling to connect with current and future clients, chat about all things HR and focus on what we can do to make the onboarding process easier for everyone involved.

The SHRM conference features well-known speakers and seminars that cover a variety of essential topics such as:

- Employment Law & Regulations
- Diversity, Equity & Inclusion
- Global HR
- Recruitment & Talent Acquisition
- Technology & Data Analysis
- And much more

PBSA

We are avid participants in all things related to the Professional Background Screening Association (PBSA). Our team travels to their mid-year legislative conference, which highlights federal and state laws, as well as their annual conference where industry leaders cover a vast array of vital topics.

Backgrounds Online also participates in ongoing PBSA meetings where we learn even more about best practices, legislation and issues that affect employers throughout the United States. We use this to improve our policies and create educational resources which give you an even more competitive edge.

HRTech Conference

We see ourselves as a service-first tech company that offers comprehensive background screening. We've built a completely proprietary platform in-house which gives us the leverage to customize unique solutions to common HR problems without relying on outside software partnerships. Our development team can move swiftly to address our clients' specific needs and meet industry requirements.

The annual HR Technology Conference & Exposition is an excellent opportunity for us to connect with fellow tech professionals who are building innovative solutions that will enhance the future of Human Resources. This is the longest-running HR tech conference and we're proud to be a part of such an amazing group.

Why We Attend

You are the reason we attend these conferences and many others like them. The opportunity to meet HR professionals and learn about the challenges they face during their hiring process helps us serve you even better.

While there, we get to discuss how we can help employers overcome hurdles with court delays, provide real-time status updates and offer the absolute best service. We also enjoy hearing from industry experts, legislators and a diverse group of professionals who have unique insights about hiring, screening, compliance and other key subjects. The incredible feedback we receive helps us grow as a company so we can constantly create an exceptional experience for you.

In this increasingly remote world, we love to get out there to network, understand your evolving needs and endlessly educate ourselves so we can make your lives easier. As your partner in the screening process, we are only successful when we learn and grow together.

Contact Us

Have questions about the events were attending? Need help with your background screening process? Contact our friendly, experienced team Monday – Friday from 5am to 6pm PT.
